WHO DOES WHAT?

THE CAPE TOWN CENTRAL CITY

IMPROVEMENT DISTRICT (CCID)

CLEAN // SAFE // OPEN FOR BUSINESS

The CCID was established in 2000 as one of the City’s

Special Rates Areas to work together with the CBD’s

primary service providers (the City of Cape Town and

SAPS) to ensure the Central City is a safe, clean and

caring urban environment that retains and attracts

business and investment.

Providing top-up services to those of the primary service

providers, the CCID works across four departments:

Safety & Security, Urban Management, Social

Development and Communications & Marketing.

This booklet introduces you to the top-up services provided by CCID Urban Management

across the four precincts that fall within our

boundaries.
For guidance on how to improve your “spot” in the Central City, or need advice on City of Cape Town applications or procedures, speak to your Precinct Manager. The highlighted areas above will tell you which precinct you fall into and who to call:
